Online	Online	ONL	27	27	kimscheffer@cw.edu		
<p>TED-CWI: Lessons Worth Learning TED, which stands for Technology, Entertainment, and Design, is an organization famous for its "ideas worth sharing" in the form of 20-minute video presentations. Many are familiar with TED Talks and have probably watched a few, such as (insert example of popular talk?). TED uses ideas to inspire change in attitudes, lives, and ultimately, the world. Using Ted Talks and Ted-Ed(ucation) as our platform, this course will provide strategies to be successful in college while simultaneously sparking and celebrating your own ideas about learning and how to apply those ideas to your education. The final project of this course will allow you to showcase your innovation and skills through the creation of your own TED-Ed Lesson on student success skills. NOTE: Online sections of CWID are designed for students in fully online degrees. Students who are taking any face-to-face classes should select a face-to-face or hybrid section of CWID.</p>

Online	Online	ONL	27	27	lizalong@cw.edu		
<p>You Are What You Eat: Exploring Our Relationships with Food This course explores the complicated relationship between humans and their diet, using Michael Pollan's The Omnivore's Dilemma as a guide. In 21st century America, we have nearly limitless choices about what to eat. But those choices come with hidden costs. What we choose to eat affects everything from our personal, physical, and mental health to our communities to the global environment. Our diet may reflect deeply held ethical or religious beliefs. It may indicate our economic status or our cultural background. Or it may represent a mindful choice designed to fuel a healthy lifestyle. In this course, we will learn where our food comes from, how diet impacts our health, and what our individual diet choices mean within a global context. We will also learn practical tools and strategies to promote success in college and in life. Hybrid course - has an online component</p>

<p>Modern Romance Find love and happiness in this class! In our modern world you need to have skills with mobile technology and the internet along with the communication tools to find your true love and win their heart. In this class we will develop the written and verbal communication skills used in romance. In this course, we will learn to learn from current research and your personal experiences to explore how to search for love and keep building true love from your continued learning that will last after the in-love experience has run its course. Moreover, we will learn how to "fight fair" making cultural connections in relationship and how to solve the problem of getting over someone without losing your cool. The college years are when many people meet their significant other. Additionally, there is a necessity in college to make and develop relationships that will use the same type of tools (yet not so intense) as do romantic relationships. With this class you'll better understand all relationships in general and specifically LOVE. You will come away with a game plan for success! Hybrid course - has an online component</p>

Online	Online	ONL	18	27	maiakelley@cwi.edu			
<p>Cryptography: Secret and Not-So-Secret Codes Throughout history, cryptography has evolved from messages written on the shaved heads of servants to highly robust computer encryption. In this course, we will examine the history of cryptography, study several cryptosystems, and practice techniques for cracking those cryptosystems. In addition, we will be examining our current level of dependence on cryptography, for instance, in our banking systems and cell phones. The mathematics required to understand and implement these cryptosystems is the equivalent of four years of high school mathematics. This class is designed to appeal to both history and math/science buffs alike! NOTE: Online sections of CWID are designed for students in fully online degrees. Students who are taking any face-to-face classes should select a face-to-face or hybrid section of CWID.</p>

Online	Online	ONL	26	27	mariannnelson@cwi.edu			
<p>How Not to Die; Surviving the Extremes Why is it so hard to breathe at the top of Mt. Everest and why can't a scuba diver race to the surface from 90 feet underwater? We will explore those topics as well as the extreme survival conditions in the desert and out at sea. How does the human body adapt physiologically to maintain homeostasis when we are challenged to survive? Similarly, how can you survive and thrive as a college student? Let's explore all the ways to make smart decisions in conditions you will face in and out of a classroom. NOTE: Online sections of CWID are designed for students in fully online degrees. Online	Online	ONL	9	27	garythomas@cwi.edu			
<p>What Are the Chances? Newspapers love to splash big headlines about death by shark, but did you realize that you are more likely to be killed by a statistician than by a shark? This topic will take a light-hearted but rigorous approach to probability, giving students the opportunity to exercise some simple mathematical operations while thinking about complex ideas. The theme will be approached from a variety of disciplines, looking not only at the mathematical concepts of probability, but also at its historical and philosophical underpinnings. Don't be afraid to sign up just because your math background is shaky! All calculations will be done with calculators, and nothing is more complex than simple addition, subtraction, multiplication, and division. About two-thirds of the material in this course is not covered in any other math course at CWI.</p>

Online	Online	ONL	22	27	scottstraub@cwi.edu			
<p>Movies and Documentaries that Move Us Do you like films and documentaries that are inspiring, uplifting, and intriguing? Do you wonder whether they can move people to action? The classroom, with all its inherent drama, conflict, and diversity, has provided the perfect setting for many books and movies in our culture. In this course we'll explore how education portrayed in cinema and literature compares to the real world, and we'll have some fun along the way. Additionally, we'll discuss how adults learn, in both a traditional and online environment. Students completing this course will be better prepared to succeed in college and in life. Whether you are just curious about how movies and documentaries influence our lives or perhaps you are considering a career in teaching, join us to uncover the tips and tricks to achievement in school, and beyond. Hybrid course - has an online component</p>

<p>The American Story The United States is a nation from various backgrounds including those of early colonizers, immigrants, indigenous populations, enslaved, Latinx, and refugees. This interdisciplinary course will give students an opportunity to explore the themes that have resulted in The American Story: culture, heritage, and historical context. This course will provide you with both practical successful student strategies and better awareness and understanding of America's rich diversity. NOTE: Online sections of CWID are designed for students in fully online degrees. Students who are taking any face-to-face classes should select a face-to-face or hybrid section of CWID.</p>
