

One (1) question was received by the deadline 7-9-2024 by 5:00PM MST. The question and CWI's response is recorded below.

Question:

I understand that Ortronics/Superior Essex is hardspec'd because it comes with the nCompass Limited Lifetime Warranty, but would you accept Leviton/Berk-Tek certification with a Leviton Lifetime Warranty instead?

CWI Response:

Per specifications, CWI is requiring a nCompass limited lifetime warranty keeping with campus standards and having all project warranties held with the same manufacturer (Superior Essex/Ortronics). This allows us to work any material warranty issues to be worked thru a consistent manufacturer.
