

Using the Course Catalog in Student Planning

This process will walk you through how to view course description and availability using the course catalog in student planning

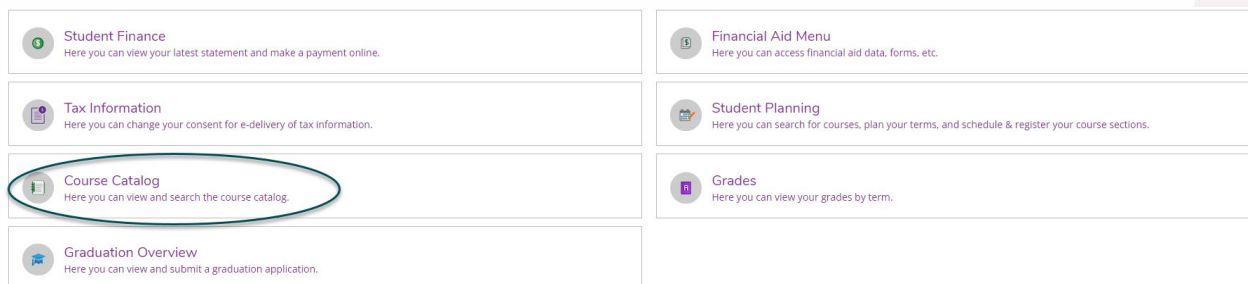

Student planning can be accessed through your myCWI account. Log into your myCWI with your user name and password.

<https://my.cwi.edu>

Select “My Toolkit”

Select “course catalog”

All course subjects will be listed. Scroll down until you see the desired subject. Select the subject you would like to find a course in. You can also type the subject in the search bar.

Subject Search Advanced Search

Search for a course subject:

[Accounting \(ACCT\)](#)

[Admin Specialist \(ADMS\)](#)

[Adv Mechatronics Engrn \(AMET\)](#)

[Agriculture \(AGR\)](#)

[Anthropology \(ANTH\)](#)

[Apprenticeship \(APPR\)](#)

All courses in the selected area will populate on the right. Filters will appear on the left.

Course information will show the course names, description, credits, requisites, and seats available.

Selecting “view available sections” will show you course offerings and times.

Filters Applied: Anthropology (ANTH) X

ANTH-102 Cultural Anthropology (3 Credits) Add Course to Plan

The goal of this class is to equip students with the ability to approach human systems and patterns from a holistic perspective. Students will examine the behavioral adaptations humans have innovated in a variety of environments worldwide and take a comparative perspective based on cultural relativism and human behavioral ecology. Universal themes including subsistence patterns, economic systems, political organization, gender roles, technology, artistic expression, and belief systems will also be emphasized. (This CWI course meets Idaho State Board of Education GEM competency requirements for GEM 6 - Social and Behavioral Ways of Knowing OR the CWI Global Perspectives requirement. [It will not fulfill both requirements.]

Requisites:
None

Offered:
Usually Offered in Fall/Spring

ANTH-103 Intro to Archaeology (3 Credits) Add Course to Plan

Archaeology is the study of human, biological, and material remains for the purpose of reconstructing past cultures and societies. Learn how scientific methods can be used to discover secrets of the human past, what ideas and theories have developed from archaeological discoveries, and how data is obtained and used to develop explanations of our shared past. Students will be introduced to the history of archaeology; the nature of the archaeological record; the techniques used to reconstruct the physical, biological, and behavioral adaptations of ancient humans; and the current scientific theories about human history. (This CWI course meets Idaho State Board of Education GEM competency requirements for GEM 4 - Scientific Ways of Knowing.)

Requisites:
None

Offered:
Usually Offered in Fall/Spring
