

HVAC Apprenticeship

<https://cwi.edu/program/hvac-apprenticeship>

As the Heating, Ventilation, and Air Conditioning (HVAC) trade is growing, and College of Western Idaho's (CWI) HVAC Apprenticeship Program is your key to starting a rewarding career in a field increasingly in need of trained and licensed technicians, installers, and trouble shooters.

This four-year program will take your skills from the basics to being prepared to take the Journeyman's test to become a licensed HVAC technician. HVAC Apprenticeship classes are available in a hyflex format offering in-person and virtual class options with 576 hours of classroom training and 8,000 hours of on-the job experience.

Learn from industry experts in the classroom in concert with employment in the HVAC field for on-the-job training while earning a living. Courses will teach refrigeration as applied to air conditioning theory, electrical theory, motors and basic electrical controls, International Fuel Gas and Mechanical Code, installation methods, and much more.

Prepare yourself to work in the following areas of the HVAC industry:

- Residential
- Commercial
- Industrial

PROGRAM REGISTRATION

The next apprenticeship year will begin in late August to early September 2022.

Registrations for the next apprenticeship program start will begin on July 1, 2022. Mark your calendars and register as soon as you can.

All first-year students will be required to review and complete the HVAC Apprenticeship Online Orientation.

Be sure to check all of the registration options for specific start dates.
