

Medical Coding and Billing for Outpatient Services

<https://cwi.edu/program/medical-coding-and-billing-outpatient-services>

Do you have an eye for detail? Are you assertive and analytically minded? Would you like to work in healthcare, but prefer to spend your time behind the scenes in a more administrative role?

If you're interested in anatomy, physiology, medical terminology, and clerical work, then you'd love a medical billing and coding career.

Developed by professionals in the field and packed with relevant, interactive content, our skills focused program will teach you the must-have skills employers expect from medical coding and billing experts. It's focused, it's current, and it'll have you job-ready in as little as 12 months. You'll also receive one free voucher to sit for the CBCS, CPC, COC, or CCS-P certification exams.

Our have-it-your-way training is always on...because it's online. 24/7 Web access gives you the freedom to study however, wherever, and whenever you want. Got a laptop? You're ready to rock! It's pretty empowering when you think about it.

CAREER INFORMATION

Medical billing and coding jobs consist of managing patients' electronic health records. It's critical work considering that every patient is someone's mother, husband, child, or other precious family member. As part of your daily responsibilities, you'll assign standardized codes to the procedures performed by the healthcare facility you work for. Sounds relatively straightforward, but this is the first step in helping patients get their medical bills covered, so they have one less thing to worry about.
